# BURAYU

---

HIGHLIGHTS

A PUBLICATION OF IN HIS NAME MINISTRIES

# SALVATION

The town of Burayu neighbours the capital city of Ethiopia, Addis Ababa. While many conferences have been held in Burayu, no mass, soul-winning endeavour, involving all the evangelical churches, has ever taken place. These churches face great opposition from other religious groups and we were thrilled to be taking hands with them. During the preparation phase, our team trained and took groups of believers regularly onto the streets, engaging in one-on-one evangelism and turning closet Christians into red-hot witnesses. Stones were thrown at these born-again believers as they evangelised and yet, they persevered. Their efforts resulted in close to 1,000 salvations before our crusade even kicked off. Praise the Lord! During the crusade itself—held from 3-6 March 2022—over 30,000 pieces of follow-up material were distributed. The pastors are understandably elated and currently hard at work, connecting with every new convert.

# HEALING

Prayer for the sick was packed with power. A 35-year-old woman called Lalisa had been debilitated by a kidney disease for the past ten years, the pain intense and all-consuming. During our crusade, the Lord touched her and she felt in her body that she had been healed of her affliction. The pain is gone and she is free. “I will invite those who I know who are sick to also come to this crusade, so they can be healed too!” Lalisa voiced. Tamene is 39 years old. Several years ago, he disappeared from his home and family. When he was eventually found—that was two years ago—he could not speak at all and nobody knew why. His brother had brought him to the crusade, desperate for a miracle. The Lord honoured that step of faith. During one of our services, Tamene started speaking! His brother was ecstatic and brought him to testify on stage. Tamene voiced, “Amen!” into the microphone and the crowd rejoiced.

# DELIVERANCE

Bekele is 26 years old and a furniture-maker. He had been tormented by a strange disease for the past several months. He had a constant migraine and struggled to breathe, his chest tight and constricted. "I went from doctor to doctor," he shared, "and took many medicines. Nothing helped me." Today, Jesus performed a complete work in him. During prayer, his nose started bleeding. Suddenly, the migraine stopped and he felt in his lungs, a tremendous release. Overwhelmed with joy, this young man praised the Almighty God. Dr Jesus had done what the human doctors could not do!

Buse is a precious, 60-year-old lady who had been suffering from an issue of blood for the past three years. Like the woman in the Gospels who had endured the same condition, she had also been to many doctors but was still no better. Marvellously—and also like that woman in the Gospels—she experienced the miracle-working power that only our Jesus can exert. During prayer in one of our morning services, the bleeding stopped completely. She was jubilant! That evening, she returned to testify. In fact, she brought with her to the crusade a reference letter to yet another specialist which she cast enthusiastically on stage. “I do not need this anymore!” she confessed. “I am free!” Zelalem is a young man who had been tormented by an unyielding migraine headache for the past ten years. Sometimes, he thought he was going mad. Depression was his constant companion. Wonderfully, during prayer, that migraine suddenly stopped! In awe of the goodness and greatness of His God, Zelalem praised the Lord. Kasahun had suffered from unbearable lower back pains for the past five years. She is only 22 years old. “I could not sit or stand properly,” she shared, “the pain was too great.” How encumbering for so young a lady! During prayer, she felt the power of God moving through her body, freeing all from her ailment. “Burayu must come and experience this salvation!” she expressed.

# EMPOWERMENT

During our crusade, we also handed out Certificates of Appreciation to certain key pastors and volunteers on stage, who then held their own ceremony to distribute to the hundreds of other pastors and leaders who were involved in the organising of the event. We also gave over 400 Amharic books to these key organisers, that they then distributed to the leaders under their governance. The titles included my book on evangelism, “Spirit of Fire” as well as John Bevere’s books, “Multiply Your God-Given Potential” and “God, Where Are You?!” that were kindly donated by his ministry.

# HOLY SPIRIT FIRE

Tamryn preached on the Holy Spirit—following the salvation message—during three of the evening services, building layer upon layer of teaching. She emphasised that God would fill every believer with His Spirit and use them with tremendous power to preach the Gospel in their communities, heal the sick and cast out demons. In the final service, we prayed for the infilling of the Spirit and the people received with ease and enthusiasm. It was a splendid sight, bearing witness to them being saturated with His power and presence! An army of soul-winners was born that will continue shaking Burayu—and Ethiopia—for our Saviour King. In that final service, the prayer requests that had been submitted during the crusade period were also prayed over, together with Ethiopia and the Oromia Region.

# THANK YOU

Dear friend, thank you for crusading together with us through your prayers and financial support! This harvest of salvations and healings is your harvest. You laboured side-by-side with us and we are extremely grateful. Burayu has been forever changed and the angelic hosts are rejoicing. Let us rejoice together with them. Amen and amen!
